## EDUCATION

Nalanda Institute of Technology Bhubaneswar,  
Chandaka (Ongoing)

Oct-2021, 2025

- B. tech in Computer Science and Engineering

---

## Web Development Project:

### 1. Ecommerce Platform

- Developed a user-friendly e-commerce platform utilizing HTML, CSS, JavaScript, node.js react, express.js. I focused on creating a visually appealing and responsive user interface (UI) that ensures a seamless shopping experience across all devices.

key functionalities:

- product search with filtering options, shopping cart with quantity management, product image carousels, dynamic product variations based on user selections

### 2. Text-Utils

- Developed a user-friendly personal dashboard utilizing CSS, React.js, Bootstrap. I focused on creating a visually appealing and responsive user interface (UI) with Some of important function which used to manipulate a sentence or a text or a word.

key functionalities:

- Conversion of text i.e. (to Uppercase, to Lowercase, Capitalize) removing extra spaces calculate no of words, provided copy to clipboard function as a button and more.

---
